LACCD Interns & Green Jobs Program

The LACCD Interns & Green Jobs Program is designed to expand career opportunities for students within the Los Angeles Community College District.

Working with private businesses and firms, our program is creating hundreds of new and exciting paid and unpaid internships in a wide range of occupations; including architecture, construction, engineers, graphics, customer service, sales, green jobs, marketing, technology and business management.

Internships provide students with the training, skills and knowledge necessary to succeed in today’s workplace.

Apply Today
www.laccdinterns.org

To qualify for a part-time (0 – 32 hours) intern position, eligible students must:

- Be enrolled in at least six (6) LACCD units, for any upcoming, current, or most recent semester
- Submit an application and a resume online at: www.laccdinterns.org
- Obtain a referral from faculty or the college career center

To qualify for a full-time (32 – 40 hours) intern position, former students must:

- Have completed an LACCD certificate program or degree within the past 12 months – or – have completed 12 units or more at any LACCD campus within the past six months
- Not be currently enrolled in any LACCD class
- Submit an application and a resume online at: www.laccdinterns.org
- Obtain a referral from faculty or the college career center

Program Benefits

- Earn while you learn
- Gain exposure to cutting-edge firms
- Flexible hours to accommodate your schedule
- Become familiar with a range of occupations
- Opportunities to assess and reach career goals

Companies that employ our interns include:
Gateway Science and Engineering • National Electrical Contractors Association
Los Angeles Unified School District • Metropolitan Transportation Authority • NASA Jet Propulsion Lab

This experience has been valuable in advancing my career goals. My overall experience has been great! This is a wonderful opportunity for anyone wanting to perfect their professionalism in a work environment.

Christopher Duarte,
Intern, Gateway Science
You Have Questions, We Have Answers!

Are the internships paid?
The majority of the internships are paid. We encourage all employers to pay, at minimum, to City of LA living wage standards.

How long do internships typically last?
You can expect to intern 3 to 6 months or more, depending upon the needs of the employer. Keep in mind there is always the possibility for permanent placement.

What type of hours will I work?
Work hours are generally flexible and employers will work with your school schedule.

How can I prepare?
Visit your campus career center for resume writing, interviewing and career advice. Your campus Cooperative Education program can also provide up to 4 units of credit for eligible work activities.

Green Jobs are Jobs of the Future...
The LACCD Interns & Green Jobs Program connects students with companies that are developing green collar jobs that protect natural resources and benefit the environment.

LACCD “Green” Courses Include:
- Automotive & Diesel Technology
- Renewable Energy
- Chemical Technology
- Solar Energy Installation
- Utilities and Construction
- Weatherization and Energy Efficiency
- Waste Management

What is a Green Job?
“Green jobs are jobs that provide products and services which use renewable energy resources, reduce pollution, conserve energy and natural resources and reconstitute waste.”

– Vice President Joe Biden’s
Middle Class Task Force
